Sequence 8, Application US/09699266A
Patent NO. 6559354
GENERAL INFORMATION:
APPLICANT: Ma, Hongchang
APPLICANT: Odell, Joan T.
APPLICANT: Odell, Joan T.
APPLICANT: Rafalski, J. Antoni
TITLE OF INVENTION: TRANSCRIPTION AND GENE EX
FILE REFERENCE: BB1164 US NA
CURRENT APPLICATION NUMBER: US/09/699,266A
CURRENT FILING DATE: 2000-10-27
PRIOR APPLICATION DATE: 1999-04-16
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      ProAlaGluAspValAspThrProProArgLysLysArgLysHisArgLeuTrpAla 500

Patent No. 6239327

Patent No. 6239327

Patent INFORMATION:

APPLICANT: Cold Spring Harbor Labs

TITLE OF INVENTION: No. 6239327el Seed Specific Polycomb Group Gene and Methods

TITLE OF INVENTION: use for Same

FILE REFERENCE: mea genes

CURRENT APPLICATION NUMBER: US/09/061,769A

CURRENT PILING DATE: 1998-04-16

PRIOR APPLICATION UNMBER: 09/061,769

PRIOR PILING DATE: 1998-04-16

PRIOR PILING DATE: 1998-04-16

NUMBER OF SEQ ID NOS: 21
